

Dear WOW Members! – November 2017 Newsletter

Thanks for attending our October meeting! It was so great to see some of the winning quilts from the Quilt Show! We have amazing talent at our guild, and I believe we can and should learn from each other!

Please bring a friend in November! If you know someone who is new to quilting, this is going to be a great meeting to invite them.

We are planning a new meeting structure for our special November 27th meeting & party. I'm writing so that you can come prepared for this fun and inspirational meeting.

7:00 to 7:45 pm: (Please arrive a few minutes before 7 pm if you can)

For the first half of the meeting we will break into small groups by different quilting talents. We ask that when you come in, you go to the table that you are interested in, either by expertise that you can share with others, or by personal interest to learn the technique!

Each table will be clearly labeled. For anyone who has expertise or advanced knowledge in the quilting technique, we ask that you bring a small sample to share with the group at your table. You can bring a book, a small finished project, a small UFO, or photos. For those who want to learn the technique, you don't need to bring anything to the table.

** This meeting is NOT where we will demonstrate skills. It is a discussion only meeting. **
We will better explain why we are doing this structure when you arrive at the November meeting.
